aqua clean[®]
EXTREME

Fabrics you can clean with just water

With Aquaclean no stain can resist us!

MAINTENANCE AND CLEANING

For normal sofa maintenance we recommend that you vacuum the entire surface area regularly. You can use a normal home vacuum cleaner with a brush fitting.

Water cleaning in three simple steps

Aquaclean[®] Technology enables you to get rid of small stains such as wine, coffee, food and even most marker pens without having to wash with soap or detergent.

1. Remove any excess residue on the upholstery.
2. Apply water over the stain, either directly or using a damp cloth. Wait a few seconds.
3. Press down over the stain with the damp cloth and rub gently over the fabric using circular movements. If the stain does not come off completely, repeat the process as required.

WASHING INSTRUCTIONS

For normal care, you don't need to remove and wash the sofa fabric. But for large or tough stains, before washing review the following instructions:

- Machine wash, delicate cycle (maximum 40°C).
- Use neutral detergents.
- Do not spin dry.
- No bleach.
- Do not dry in tumbler.
- Do not dry in sunlight.
- Do not squeeze or wring.
- Iron inside out.
- Use soft brush.

FABRICS RECOMMENDED FOR HOMES WITH PETS

Aquaclean Extreme fabrics have a structure designed to facilitate cleaning and prevent claws from digging in to the fabric*, plus they have a **Safe Front** treatment that prevents the proliferation of bacteria and mites.

Health, Hygiene and Well-being

Longer Lasting

Easy Maintenance

EXTREME

SAFE FRONT® protects as standard against enveloped viruses and bacteria, effectively reducing its activity by more than 91% against untreated fabrics. This shield maintains optimal levels of hygiene on your sofa by acting permanently. SAFE FRONT® has been demonstrating its effectiveness against mite allergies since 1999.

PFCs are artificial substances widely used in the textile industry for their water repellent properties. Aquaclean does not use them due to their harmful effects, as we prioritise good health for our customers.

None of these items has been created with animal products or derived from them at any stage of production. Including product tests, use of waxes, dyes, additives of animal origin or chemical products.

Every component of this article has been tested for harmful substances and that the article therefore is harmless in human ecological terms.

Fire Retardant Technology according to European and worldwide maritime regulations.
